Message from YB Dato Sri Haji Abdul Karim Rahman Hamzah

- Minister of Tourism, Creative Industry and Performing Arts Sarawak
- Minister of Youth, Sports and Entrepreneur
 Development Sarawak

The What About Kuching or WAK movement plays a pivotal role as the major open access, multi-genre, month-long annual festival in Sarawak's calendar of events with its unique nature which truly represents its tagline, BY THE COMMUNITY FOR THE COMMUNITY.

Once again, I congratulate the many creative community partners for putting on a wonderful line-up of events throughout October 2022. With 58 collaborators staging 186 unique events ranging from music to dance to theater to fine and literary arts to handicrafts, gastronomy and more, WAK 2022 is the biggest edition since 2017.

My ministry has been working tirelessly to re-activate the tourism, arts and creative industry and is thrilled to again be the official sponsor of WAK 2022. WAK's mission to become an iconic international platform for the arts, culture and lifestyle resonates with Sarawak's vision and we pledge to support these efforts to the best of our ability always. It is only via such lofty ambitions that we can grow our local creative industries to international standards and so I urge the WAK team to aspire to the highest standards possible for WAK.

Kuching will be buzzing with a hive of WAK 2022 festivities all October so I urge everyone to come out to enjoy live performances once again and to show your support and love to the creative communities. My family and I too look forward to joining everyone at many of the exciting WAK 2022 events.

To the many creatives, I wish you all the best in your undertakings, and to WAK audiences near and far, I am confident that you will be overwhelmingly entertained by the wonderful talents staged. After the challenges of the past 2 years, let us all come together to celebrate the arts, culture and lifestyle at WAK 2022 Festival.

THANK YOU TO OUR SPONSORS, PARTNERS & COLLABORATORS

KUCHINGIN&OUT

HISTORY

Every October since 2017, Kuching turns into a buzzing hub of activity, taking the tail end of the tourist season and stretching it with a series of events spearheaded by the community for the community. We wanted it to be all about Kuching, and we didn't want to keep asking "What about Kuching?" every time an event or tour skips over East Malaysia again.

This was what happened:

In 2017, a team led by the founding festival directors Donald and Marina Tan instigated the numerous communities in Kuching City to come together to stage their respective contents under a common festival umbrella coined as 'What About Kuching - Celebrate Arts, Culture & Lifestyle', now better known as WAK.

The name was a happy accident from someone mishearing the list of potential festival names, interjecting with a "What about Kuchino?"

What about it indeed.

WAK is a community-driven month-long festival of the arts, culture and lifestyle of the people of Kuching and Sarawak. It happens each October with a multi-genre programme centred in the city of Kuching and radiating outwards towards greater Kuching.

WAK is an 'OPEN ACCESS' festival, meaning that anyone and everyone can propose an event they intend to organise and run by filling in a PROPOSAL FORM during the CALL FOR PROPOSAL period from March to May each year.

If you make it through the whole process, you become a COLLABORATOR and join the WAK family.

In its inaugural year, WAK had 75 events registering an estimated footfall of 70,740. During WAK 2018, there were 78 events registering an estimated footfall of 253,983. In 2019, WAK 2019 had 99 events registering an estimated footfall of 260,952.

In 2020 and 2021, we were forced to hit the 'pause' button along with every other event organiser around the world.

This year, we are back and you're invited to be part of this homegrown festival.

MISSION

To celebrate the arts, culture and lifestyle to a global audience thereby creating greater appreciation and support of these amongst the local community.

OBJECTIVES

- Enhance greater tourism arrivals to benefit the local economy
- Provide platforms for personalities to showcase their different pursuits
- Create awareness, educate and garner a greater appreciation of these pursuits
- Foster regional and international collaborations to elevate local standards

MESSAGE FROM WAK

Message from Donald Tan & Marina Foo What About Kuching (WAK) Founding Festival Directors

We're ecstatic to hit the PLAY button again this year after the inevitable decision to pause WAK in 2020 due to the onslaught of the health pandemic. Little did we know when that happened that it will be 2 whole years before we can come together again to celebrate our arts, culture and lifestyle with the world.

All the pent up yearnings for live performance, interpersonal contacts, crowd fervor and everything that a real festival feeds on has resulted in an overwhelming response in proposal submissions from the creative communities at WAK 2022. Seasoned contributors from previous WAK aditions together with many new acts have proposed some very colorful contents to be staged throughout October.

This programme is jam packed with every genre imaginable catering to the widest spectrum of interest so we urge everyone to rock up to enjoy and support all our passionate creatives at their respective events. They have put in great efforts and have promised the highest standards of delivery.

Our team at WAK remains steadfast towards making this annual community driven festival a world class international platform that will draw many local and foreign talents in the years to come. To achieve this, it is imperative that we continue to have the support of all our existing sponsors, partners and collaborators and to canvas for added support from new partners to meet this high aspiration. Our heartfelt thanks to all our sponsors, partners and collaborators at WAK 2022 who have made this festival possible, we hope to have your continued support in the coming editions.

We wish our creative community the very best in the staging of their events and to the audience attending the many events staged, we hope that you will have the time of your lives at WAK 2022.

CONTAGIOUS DISEASES SOP

The global pandemic was devastating to both lives and businesses alike. We at About Kuching urge collaborators, participants and members of the public to practice continuous vigilance to help keep everyone safe.

Pay attention to the current Standard Operating Procedure (SOP) set by the Sarawak Government. It may differ slightly from the one set by the Federal Ministry of Health.

Observe any health and safety protocols (ie masking or sanitisation policies) within individual events or venues. Self-isolate if you are not feeling well.

WAK will comply with health and safety recommendations set out by Sarawak Disaster Management Committee (SDMC) at all times to ensure the safety of our audience, venue partners and collaborators.

Please continue to check **sdmc.sarawak.gov.my** and **moh.gov.my** for latest guidelines.

STAY CONNECTED

Follow our Instagram, Facebook, Twitter and TikTok accounts **@aboutkuching** for updates. If you are interested in staging an event with us, look out for our Call for Proposal launch on our social media.

Help us spread the love by tagging @aboutkuching and use the hashtag #WAK2022

PLANNING YOUR SCHEDULE

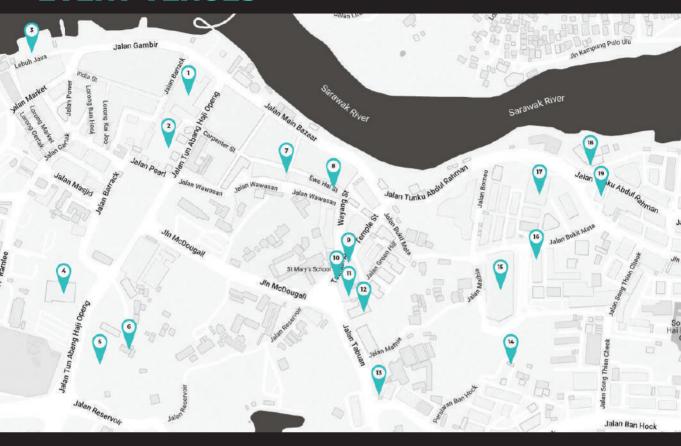

While the Kuching city centre may seem compact, it can get quite busy during certain times of the day. It's worth planning ahead; venues may look deceptively close to each other, but traffic and parking can get challenging. Sometimes it's faster to walk!

You can't go too wrong by allowing yourself ample time to arrive in the area. There's always some place nearby to explore or rediscover, local kopitiams or street food stalls to get a refuel.

The best thing about Kuching is that small wonders are found at almost every corner.

An exploration of the subject "Body", this photojournalistic exhibition - jointly curated by Syed Rusydie and Gawen Breteche Lo - looks to explore through the eyes of participating photographers around Malaysia within different fields how they would interpret this theme through photographs and photo-essays. There will be an exhibition, talks and forum discussions, sales of merchandise, and creative culinary events in tandem.

Expression through the body has been vastly limited since the turn of the pandemic as we have been taught to limit our sense of touch. In setting the theme around the body, participating photographers will detail how they've grappled with the return of yesterday's normal. This culminates in earmarking a significant time in human history.
